GARDENING PRESENTATION  
Monday, February 28th @ 4:00pm  
with author George Miller

George Miller, past-president of the Native Plant Society of NM-

Albuquerque Chapter will present a program from his recently published book, "Native Plant Gardening for Birds, Bees and Butterflies: Southwest." Besides describing the native bees, butterflies and moths, the program gives the ABCs of establishing a backyard refuge that sustains wildlife with food, water, shelter, and nesting areas. He will explain the use of drought-tolerant, low-maintenance native plants to create a yard that is not just a showplace of three-season color, but also a life-sustaining habitat for the birds and insect pollinators displaced by our houses, businesses and roads.

This lecture is co-sponsored by the Landscaping and Trails Committee (LTC) as part of their goal to provide landscaping education to our community.
