*Geology of Mirehaven and New Mexico*  
Thursday, July 21st at 4:00pm

We have two crustal rifts (only one is ancient), numerous volcanoes (a super-volcano to the north and, in the south, a new one on the way), faults, earthquakes, sea shells on top of the Sandia Mountains, and stream gravel with a rainbow of colors in phase 4 lots! How did all this come about? Now we know! Sign up at [www.delwebbmirehaven.com](http://www.delwebbmirehaven.com).

**LUNCH & LEARN**  
With Apollo Chiropractic  
**Friday, July 22nd at 11:00am**

The market has spoken about healing water. How would you like to make your own alkaline water from your cold water tap at home? You're invited to an informative Kangen Water Machine demonstration sponsored by Emma Dahl (Del Webb Resident and owner of Apollo Chiropractic). You'll learn about the benefits of drinking alkaline water such as assisting the pH balance of blood and tissues, acid reflux, difficult digestion, arthritis, and improved hydration to help detoxification, lower oxidation, and reduce inflammation. Detailed explanation will demonstrate how a Kangen Water Machine removes harmful additives in tap water, and we'll inform you on dangers of drinking bottled water, and the hazards of drinking soda beverages and sports drinks. **News from The Landscaping and Trails**

The LTC reports that damage from Yucca Weevils has been observed on a number of yucca species throughout Mirehaven during the past few weeks. Many of the infested yuccas exhibit various stages of decline-from dieback of growing tips to complete browning, desiccation, and plant collapse. The July LTC Newsletter has more information on how to recognize this serious insect pest.
